Porte d'ingresso con pannello d'acciaio – Lampre

Come sono fate le nostre porte

- Design moderno e di tendenza. Superficie uniforme sia dall'esterno che all'interno grazie al pannello applicato in entrambe i lati.
- L'utilizzo dei migliori materiali disponibili sul mercato garantisce massima qualità delle porte e portoni di ingresso.
- Con parametri molto alti in termini di isolamento termico e acustico.
- Sicurezza antieffrazione elevata:
- Le porte e portoni di ingresso, sono dotati delle tecnologie più moderne, come ad esempio il lettore di impronte digitali o una tastiera codificata che consente di aprire la porta anche senza chiave.

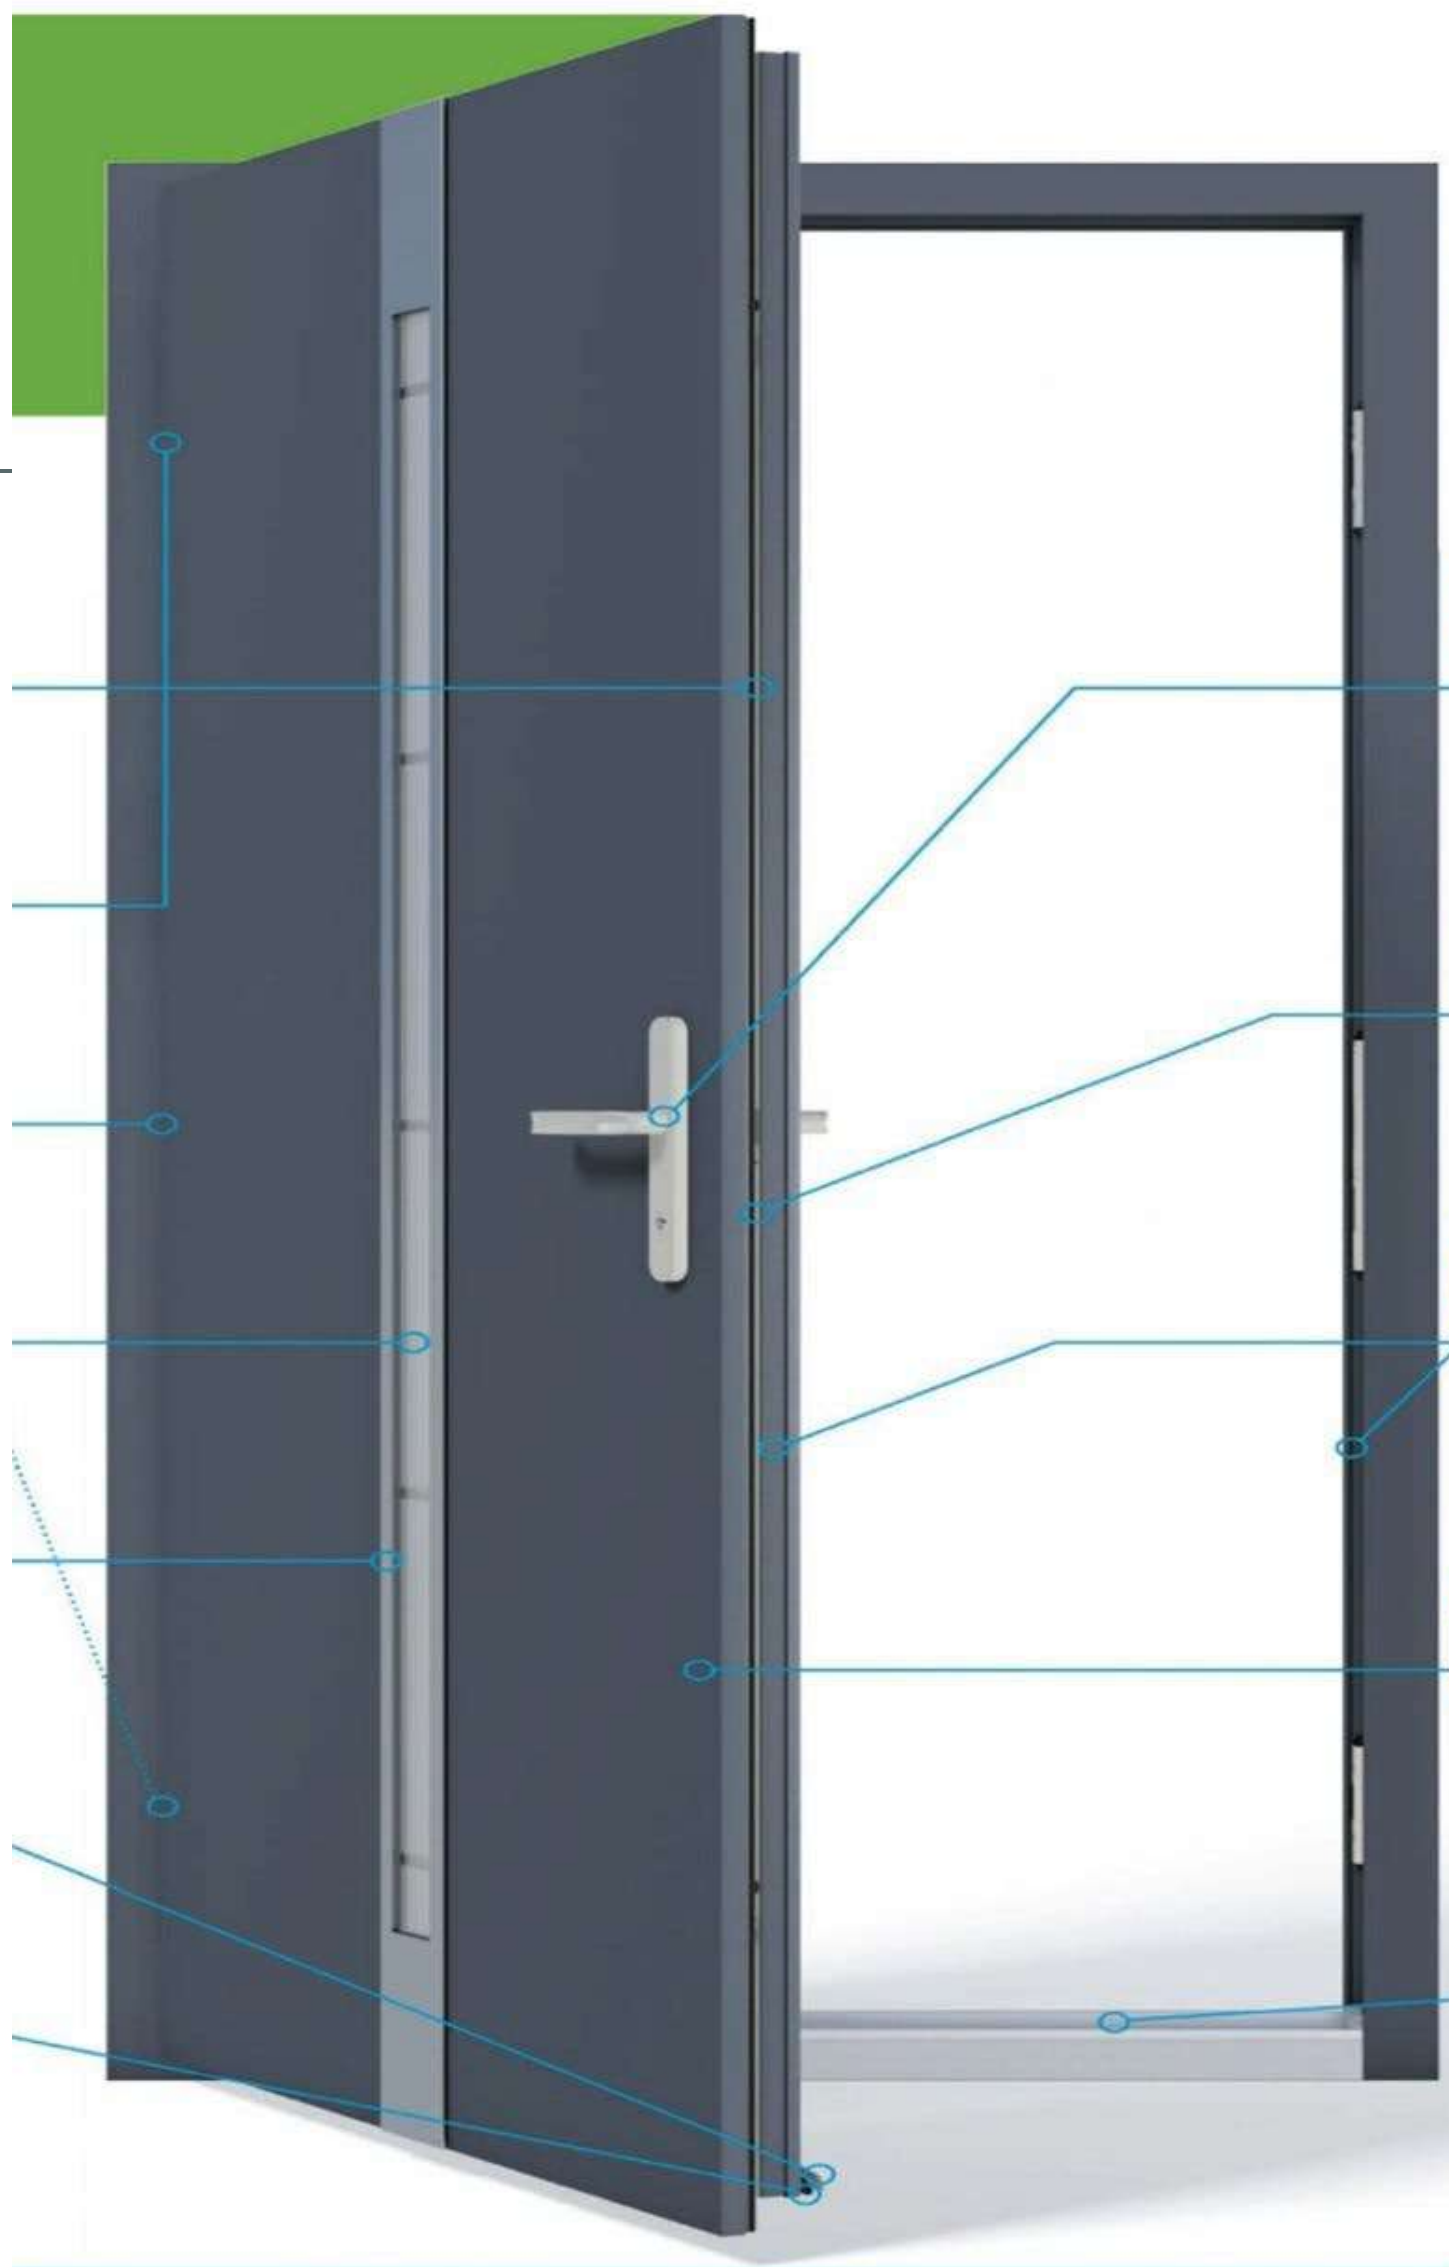

- Pannello in acciaio-lampre pannello metallico all'esterno e all'interno.

-Pannello in acciaio inossidabile 304 su 2 lati.

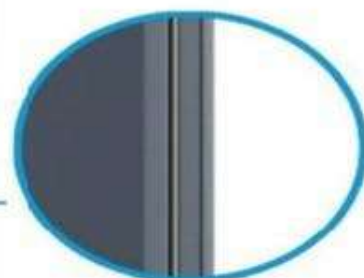

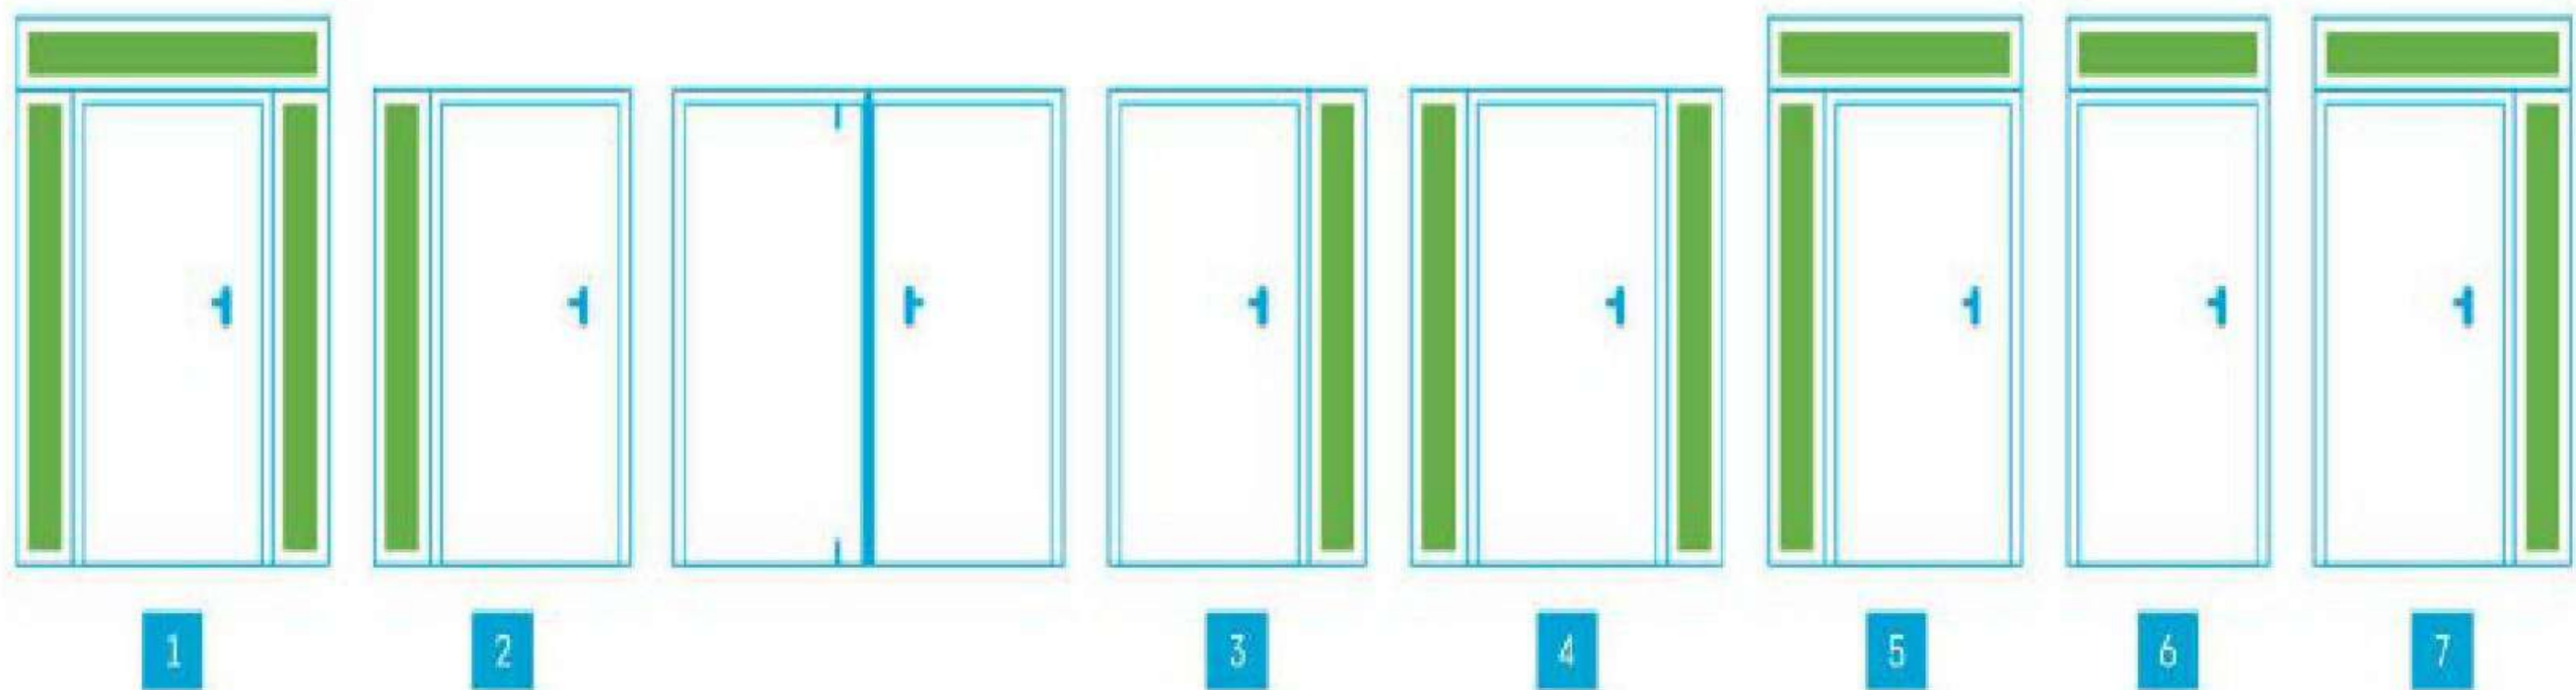

Maniglia : di vari tipi a scelta.
